## SHADY LAWN NURSERY

HAMMONTON, N. J.

Phone 440

Take Route 39 (Cement road to Trenton). We are one mile left of White Horse Pike on Route 39.

We are half way between Atlantic City and Philadelphia. 95 miles below New York City on Route 39.

Open Sundays.

# \$1.00 Specials

**THIS LIST CANCELS ALL PREVIOUS LISTS**

**All Stock Listed Below Is of a Strong, Flowering  
Size and Hardy Except Where Noted Otherwise**

---

R—denotes rock garden plant or border. Ult. H.—ultimate height. P—hardy perennial.

---

**WE GUARANTEE** everything true to name and as represented. If not found so purchase price will be refunded. Beyond that we make no further assurance.

---

**SELECTIONS** may be divided to suit purchaser. For example, if offer reads 10 for \$1.00 you may choose 5 and make up the difference of \$1.00 on other offers.

---

**PARCEL POST ORDERS.** Please note—We will ship any of the \$1.00 Specials anywhere in the United States for an additional 16 cents on each Dollar Purchase up to \$3.00. 5 cents each Dollar up to \$9.00. Orders \$10.00 and over free packing and transportation.

---

**CALL AND CARRY CUSTOMERS.** It is our custom to have all stock ready during the planting season. If you wish you may call at any time to see what you are buying. Open on Sunday as well as week days.

---

**UPON RECEIPT OF PLANTS.** Unpack immediately. If shrubs or trees soak roots in a bucket of water for two hours. If other plants and they seem dry wet immediately. Azaleas require a soaking as would trees and shrubs. Try and plant as soon as possible after this treatment.

---

**PLANTING.** You will note by the root system the depth the plants had been before digging. Plant the same depth. Do not use chemical fertilizer at any time this season. This can be used only the second year. You can use without harm rotted manure (not chicken or sheep manure), pulverized cow manure or bone meal mixed with soil.

---

**C. O. D.** We shall be glad to send C. O. D. but ask that when the goods arrive not to change your mind as to acceptance. Remember when they are returned to us it means double post office charges and the long delay causes the plants to suffer greatly. We ask only consideration for the plants and ourselves.

---

**AIR MAIL.** Why telegraph or phone. A letter mailed by air mail from Texas today reaches us tomorrow. Use air mail for quick service.

---

**CERTIFICATION.** Proper nursery certificates accompany each shipment. In such states that require special certificates these have also been applied for and same attached.

---

**FOREIGN SHIPMENTS.** Canadian or any other foreign country will need a special permit from your Agriculture Department. Have this accompany your order or we will be unable to ship.

---

**SHADY LAWN** welcomes you always. Whether you come on business or pleasure.

## A Message of Cheer

In presenting our New Catalog we are pleased to avail this opportunity to thank our many pleased and satisfied Patrons for the cheery letters they have sent us, and their proven interest in Plants. The past season has been one of the most pleasant in all our thirty-five years in our chosen line, supplying the garden lover.

During the busy season, when everyone wants our products at seemingly one time, it is trying on our resources, but we give the best that is in us to expedite all shipments, carefully selected and packed, in the shortest time possible. So we trust that if an order should not reach you just when you expect, that you will give the statement just made the best possible consideration. Which reminds the writer of a sign in a grocery store window reading, "If we please you tell others, if not, tell us!" And that is, indeed, good business all around.

In making visits to various points in this part of the state of New Jersey, we cordially urge you to stop at "Shady Lawn Nursery," and give us the pleasure of making your acquaintance. You will find no high pressure salesmanship here, only a kindred love of plant life, a congenial atmosphere that every lover of plant life delights in.

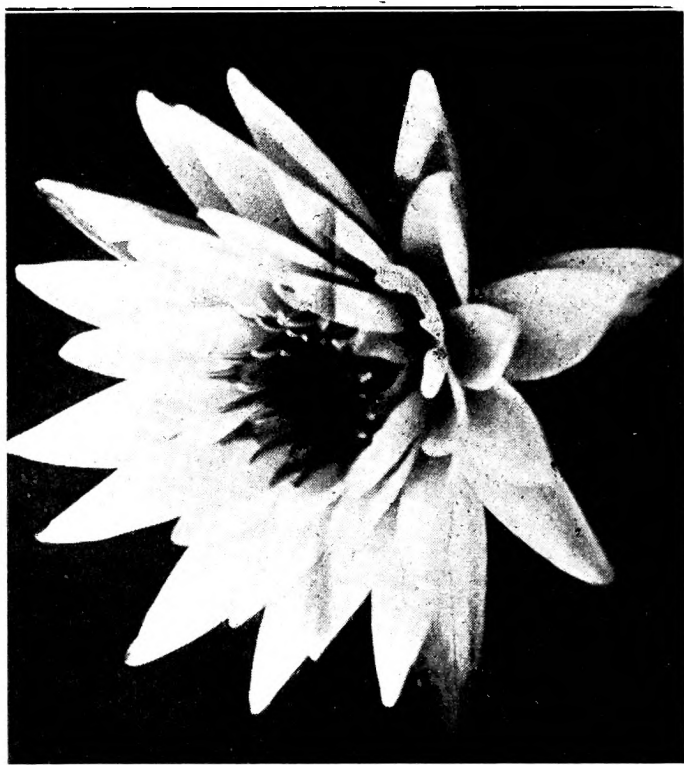

Any time you desire information on anything relating to your garden, we shall be glad to answer to the best of the knowledge acquired by us during the major portion of four decades of experience in this line.

Kindly permit us to mention something about our \$1.00 Specials arranged in highly satisfactory units. Thus, if you desire to purchase from any other catalog a Delphinus or two, the price will be around 25 cents each. But in our catalog you will find a unit of ten for \$1.00. It is just as easy for us to dig ten as one, and we, therefore, give you the benefit accruing from a quantity order. Now, for the small garden, we have arranged that you may cut this unit in two, giving you 50 cents worth of each of two varieties, making a total of \$1.00. Less than this amount is not profitable to either buyer or shipper.

Again thanking you for your kind cooperation, we remain,

Cordially,

SHADY LAWN NURSERY  
HUGO KIND.

**WATER LILY** (*Nymphaea*). For pools this is the leading water plant. Flower all Summer. Page 7.

*Mosquito Plant*

## Quantity Price

**MOSQUITO PLANT** (*Vincetoxum*), or **Cruel Plant**. There are but two species known in America. A hardy plant that will grow anywhere. Derived its name from the fact that when an insect seeks its sweet fluid it becomes a prisoner. Of course it is not an insect eradicator. Very odd and a study for the plant lover. Ultimate height—one foot. The small, star-shaped, white flowers appear in clusters of four or five at the terminax of each leaf. The leaves are small and a shiny emerald green of heavy texture. Very graceful and an artistic cut flower for unique effect. Botanist Bassett, who died twenty years ago at the age of ninety, brought this plant into cultivation. Its origin is obscure. The plant has no bad habits and remains in one place without transplanting. Propagation by dividing.

During the half century of propagation we have a nice stock to offer. 2 lg. flowering clumps 2 1.00  
(8 for \$3.00)

**NARCISSUS**. These are for house culture and are easily forced. Pebbles and water or potted. Will flower in three weeks.

White..... 20 bulbs 1.00

**ORANGE**. "Oteheite." House plant. Flowers all year. Handsome fruit continually. 5 in. pot... 1 1.00

**ORANGE TREE**. (*Trifoliata*) Hardy. Grows to a height of 15 ft. Literally covered with oranges the size of eggs during the winter months. Lovely flowers all summer. For specimen tree. see Cooper St., Woodbury, N. J..... 2 1.00

**ORCHIDS** (lady slipper), hardy, very difficult to grow..... 4 1.00

**PACHYSANDRA** (*Japanese Spurge*). Fine for under trees or shade. A fine green ground cover. Green all winter. Makes a solid mat. Requires shade. (100—\$4.00, 1000—\$35.00)..... 20 1.00

**PAINTED DAISY** (See *Pyrethrum*)

**PALMS**. We recommend but two for house culture. These will thrive under many adverse conditions..... 2 1.00

**Kentia Belmoreana**, 10 in. Tall growing type.

**Phoenix Roebelini**, 10 in. Spreading, low growing.

**PANSIES**, mammoth flowers, Giants..... 35 1.00

**PARTRIDGE BERRY**. A creeper for dense shade.

Filled with berries in Fall and Winter. Nice for indoor gardens. Clumps..... 5 1.00

**PASSION PLANT** (vine), beautiful blue flowers 2 1.00

This vine may be set outdoors in early Spring. It will flower all Summer. Though half hardy it will stand outdoors with protection. The pretty blue water lily-like flowers plainly show the following theological facts: The ten apostles, omitting Peter and Judas, the traitors; the crown of thorns by the massive filaments; the stamens are five, suggesting the five wounds; above these rise the three nails; the curling tendrils represent the scourges; the digitate leaves, the head of a lance.

**PEA BUSH**. *Curragana*. Sweet pea flowers, yellow. Beautiful foliage. Flowers in July. 3 to 4 ft. Ult. 6 ft. Upright grower..... 1 1.00

**PEACH FLOWERING**. (*Amygdalis Persica*). Ult. H. 10 ft. Immense fiery red double flowers fill the branches of this beautiful shrub. Though it belongs to the Peach family, it does not bear fruit. A very desirable acquisition. Can also be furnished in white or pink flowers. 3 ft. flowering size..... 1 1.00

**PEACH TREES**. Best edible sorts, early, mid-season and late. 3-4 ft..... 3 1.00
